# User + Website Compatability

- The website reduces user frustrations identified in the user personas
- The website considers the user's mental model by using language, imagery, and standards for that user group.
- The website creates a clear and understandable process for the user to meet their goal(s).

BEGINNING   DEVELOPING   ACCOMPLISHED   EXCEPTIONAL

Anything else I should know?

Type any notes or other items you would like the instructor to know or consider here. You may leave blank if not necessary.
